

**WORK**

**PLACEMENT**

**Warrington  
& Vale Royal  
College**

## **YOUR COLLEGE NEEDS YOU!**

**Our students are studying vocational qualifications, but they need a work placement to put the theory into practice and we need your help to make it happen.**

Work placements are the most important factor in shaping young people's perception of the world of work. It helps them to learn about a particular occupation, gain valuable skills such as independence and team work, and to understand the expectations of employers. It also helps students to make more informed choices about their future career path.

As an employer, you have the opportunity to help shape the future workforce and give your employees the chance to develop their supervisory skills. Getting involved in work placements shows your company is committed to helping the community and giving back to society.

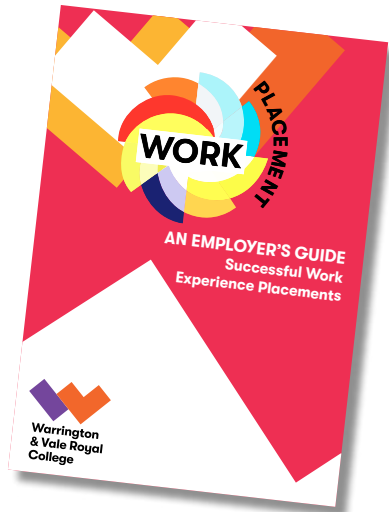

### **Extra benefits to you:**

- Gain knowledge of the developments within education
- Ability to demonstrate the jobs and careers available within your company
- Access potential employees without commitment
- Contribute directly to learners' education

**If you would like to get involved or find out more about how work placements can benefit your business, please contact the Work Placement Team:**

### What do our existing work placement providers say?

"It was wonderful to work with the college and your students. We would recommend the experience to other local businesses. Working with and supporting each other has proved to be a great success."

- *Ginny White, Blakemere Craft Centre*

"Placements give young people a fantastic real-life work experience and we strive to show them how exciting and rewarding a career in contract catering can be. The feedback we've received has been equally as rewarding for us as a business too, as young people go back to colleges more enthusiastic and motivated, which is great to see."

- *Rob Bruford, Dine Contract Catering*
